TELEGRAPHIC NEWS.

Foreign News.

LONDON, Oct. 5.-The Daily News has a lispatch from Blackburn, which says: The cotton operatives having decided to be no longer bound by the arrangement by which temperature, and partly cloudy weather, with their wages have hitherto been regulated. Some of the largest spinners have posted notices stating that they hold themselves at liberty to close the spinning departments of their mills without warning.

London, Oct. 5.—A special dispatch from Madrid to the News says: The appointment of so important a personage as Gen. Martinez Campos to the Governor Generalship of Cuba is proof that the gov roment is making every sacrifice to crush the Cuban insurrection. The nomination was totally unsolicited. General Martinez Campos will bimself nominate his principal officers.

Paris, O. 5.—Immediately upon the reas-sembling of the Chambers several radical deputies will intraduce fresh proposals for general

BERLIN, Oct. 5.—The Staats Gerichtschof met to day for the trial of Count Von Arnim on a charge of high treason. A letter from the Count, dated from Ouchy, was read, stating that the weather prevented his coming to Berlin. As his illness was not legally attested the Court on demand of the public prosecutor decided to proceed against him is contumaciam. The Court also decided that its proceedings should be private. Count Von Arnius Cavnul was not permitted to plead.

#### Yellow Fever.

NEW YORK, Oct. 5 .- An Atlanta, Ga., dispatch of October 4 says: The weather still gets warmer at Savannah, and the fever is increasing. There are more new cases reported todanthan any day is two weeks. The deaths will increase proportionally as the climatic change is unfavorable. A curious fact is that there are more interments from fever in the Catholic cemetery than in all the other cemeteries combined, although the Catholies are in the minority in the city. This is due to the fact that the Catholics are mostly foreigners and much more susceptible to take the fever and to die of it. The destitution is appalling. It seems impossible for the relief agencies to meet it, . Thousands of healthy people, especially negroes, who are thrown out of work by the paralyzation of business, are totally dependent on the relief committee for their daily rations. The change of weather carried the interments in one day from 17 to 42. The warm weather is generally over in Georgia. There is no frost here this morning for the first time in five days.

#### From aba.

NEW YORK, Oct. 5 .- Mail advices from Havana of Sept. 30, say: The insurgents entered the city of Los Tubas on the 22d, and obtained possession of it. The Diario confirms this news, and says the Spanish garrison were probably in connivance with the insurgents. That Journal says that henceforth it will give the news had or good, as it comes. Los Tunas strategic importance is very grea. Captain General Javailar, it is reported, desires that no more troops shall be sent here from Spain unless he is provided with motey to pay them. It is feared that there will be a mutiny here if the soldiers are not paid. They have received

drowned during the last easterly gale on the tanks. She lost, also, nearly everything on deck, and the two survivors of the ship's crew, Major Wilmer McLeau has been nominated | who brought the vessel into port, describe the gale as terrific.
